

COMPANY PROFILE

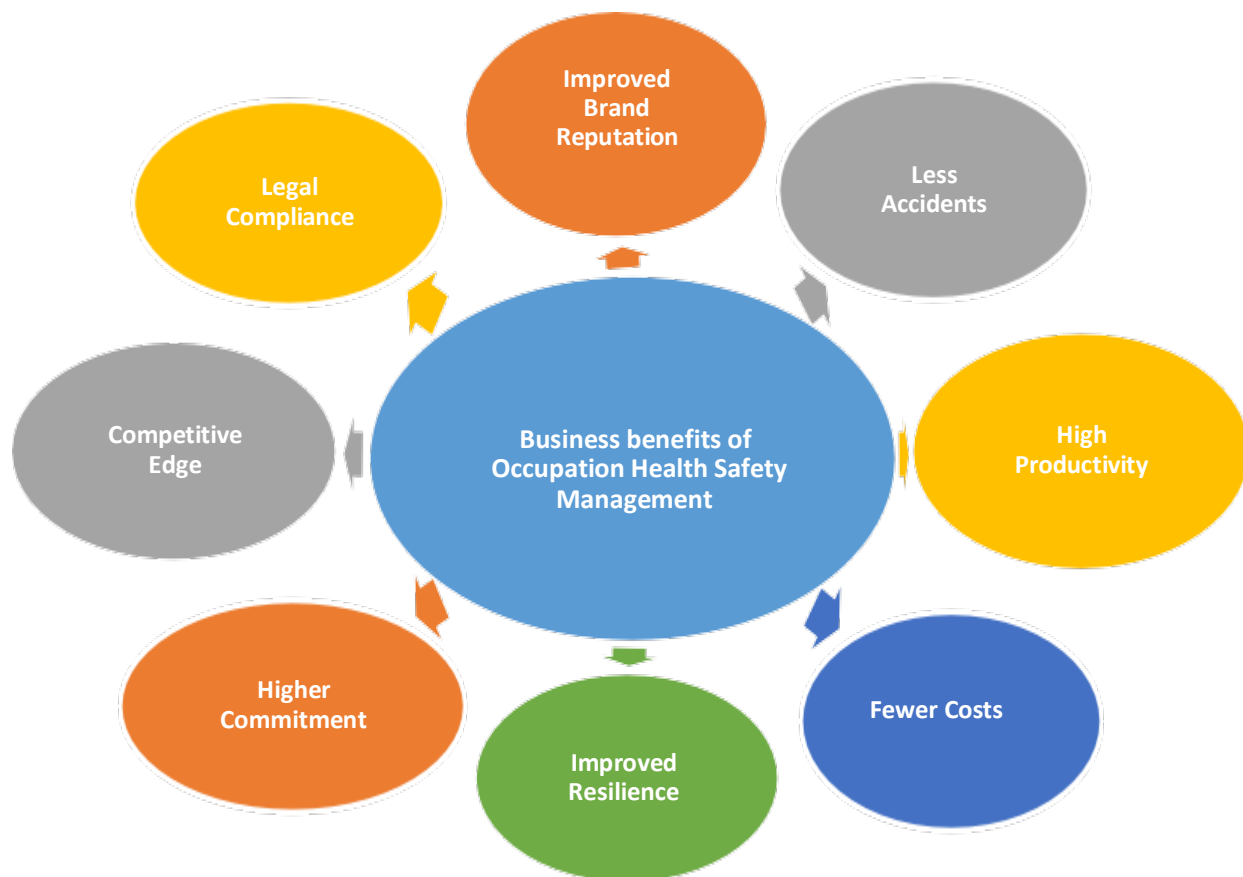

Health, Safety & Environment (HSE) Services

Helping companies manage HSE risks to their
business operations

BUSINESS CHALLENGE

Businesses produce their product to generate revenue, and when all activities and actions are pointed at a singular outcome, consistent production, an inherent pressure to achieve that outcome exists. Specially the growing employee and community awareness on the risks to the environment and their health and safety posed by the business operations, the rest tremendous pressure on the businesses to enhance the confidence level of investors, customers, employees, contractors, regulatory agencies and the society at large by putting in place proactive and sustainable mechanisms to prevent loss of life, injuries, health disorders and degradation of environment.

OUR SOLUTIONS

Manage risk and control safety-related costs by partnering with **Safety Warriors Solutions**. We combine the latest advances in safety technology with a strong history of hands-on industry experience. Our integrated safety disciplines, training matrix and compliance management, and customer-centric implementation of safety programs are an integral part of our customer's operating efficiency.

Safety Warriors Solutions offers a wide range of HSE services to help businesses to address their HSE risks in an effective manner across major industry sectors including oil & gas, energy, power & process, general engineering, logistics & supply chain, retail & distribution, building & infrastructure, construction etc.

Our service portfolio covers –

- Temporary and contract staffing & Manpower outsourcing
- Skilled workers for safety works for construction sites
- Technical Assistance for developing HSE Policy, Manual & Procedures
- Regulatory mapping for Safety Health & Environmental compliance
- Safety, Health & Environment Audits
- Construction Site Safety, Coordination & Surveillance
- Fire & Electrical Safety Audits
- Safety Training & Capacity Building
- Safety Culture Survey and Assistance for Culture Transformation
- In-Service Verification of Lifting & Construction Equipment
- Machine Conformity Assessment
- Industrial Hygiene Services
- HAZOP, HAZID, QRA, RAMS & SIL
- Consequence Assessment, Fire & Gas Explosion Analysis
- Emergency Response and Disaster Management Plan (ERDMP)
- Process Safety Management (PSM)

VALUE ADDITION

Our services have been constructive to our clients in their attempt to build a positive and sustainable HSE culture and achieve world-class HSE performance. Over the several decades, our services have helped our clients to –

- Ensure business continuity;
- Enhance market reputation and brand image by demonstrating visible commitment to addressing THE concern is the most effective way;
- Be ethical by protecting life and environment;
- Reduce risk of litigations, penalties and hefty compensations;
- Complying with the applicable regulations and relevant standards.

WHY SAFETY WARRIORS SOLUTIONS

Safety Warriors Solutions is a brand associated with Classification with experienced professionals, Third Party Inspection & Safety Management System Certification for two decades.

We ensure success through multiple HSE resources:

- On-Site training
- Recruitment and Training of new hires.
- Outsourcing Qualified HSE skilled and experienced staffs.
- Induction and Orientation.
- Legal Aid resources to resolve statutory issues.
- Job and Task-Specific Risk Assessment and control

COMPREHENSIVE ON-SITE HSE TRAINING

Our training deliveries the most current HSE content grounded in fundamental Health, Safety & Environmental principles and practices with immediately practicable & straight forward methodology.

TRAINING PACKAGE: Safety Warriors Solutions has created training packages for all areas of HSE systems planning. Starting with fundamental safety principles and practices. We tailor our instruction to your HSE plan design. Training occurs first in classroom to connect each participant's learning with "Hands On" implementation.

Training addresses all major subjects in HSE construction and operation units. Working with client goals, we outline a comprehensive training program with custom language audio and subtitles designed with interactive elements and animation to stimulate interest and retention of information in each student.

We will track the candidate's performance during and after training. Mentor participants to ensure HSE environmental services.

SWS TRAINING PROGRAM

SWS is recognized by its clients and competitors alike as having an innovating and pioneering attitude towards training. The training modules of SWS are developed within motive of increasing the knowledge & skills of the work force to enable them to perform their jobs effectively. The training program has supported their customers in diverse industries with strategic trainer staffing solution for their learning activities.

SWS FACULTIES

SWS faculties have coached and trained around 5748 participants in 105 batches in different industrial products. They are the first initiators to develop Crane Simulator setup in India. They are passionate and highly experienced multi-lingual executive coach and program leader. They bring their strong communication skills and keen knowledge gained in their 17 years of work experience in different fields.

SWS-EHS has created training packages for the most of the heavy equipment operational safety as well as construction safety. Starting with fundamental safety principal and practices, training first occurs in training room and then on-site Evaluation to examine them. We also give Road safety training program to create awareness for safe driving.

Working with client goals, we outline a comprehensive training program with custom language audio and subtitles, designed with interactive elements and animation to stimulate interest and retention of information in each participant.

EFFECTIVE TRAINING MATERIAL:

PowerPoint: PowerPoint presentations communicate key points of selected subjects clearly and effectively with graphic illustration and “bite-size” bullet point information. Participants use their copies to follow the trainer’s instruction and make relevant notes through an interactive training procedure.

Video Stream: Providing a compelling combination of animated slides, video segments, and customized language audio content, flash presentations enliven training sessions and encourage comprehension and retention of training subject matter.

Gain:

- Basic knowledge of Safety legalization.
- Participants get educated on individual safety and Equipment Safety.
- Accident free Work environment.
- Zero breakdown time of Equipment’s
- Workers and Machines ready available to challenge the project deadlines fixed by clients.
- A detailed knowledge of all kind of Personal Protective Equipments and other safety & Fire Equipments.
- A bright prospective for all attendees.

PREPARATION OF TRAINING MODULES:

The training program in **Safety Warriors Solutions** is presented in a definite order, so that participants will see the relationships between the various groups of information and can retain them more easily. The training modules are prepared understanding our client’s requirement. Our Experts visit the Client worksite and analyze the customers training requirement and prepare modules fulfilling the client’s training need.

The sections in the Training program include:

- Physical & Mental Preparation
- Classification of Equipment’s and purpose of use.
- Hazard assessment and inspection of Equipment
- General and Operational safety devices
- Equipment Operation
- How to use & read Load chart
- Safety precautions.

- Rigging (Hand Signals)
- Handling tools and tackles
- Equipment Maintenance
- Awareness about documentation
- Log sheets and its use
- Reasons for Accidents.

LACK OF COMPETENCY IN WORK IS A MAJOR CHALLENGE IN THE INDUSTRY.

The only way to overcome this Challenge.

ATTENDING TRAINING AND WORK SHOP

&

LEARNING & IMPLEMENTING IT IN OUR DAY TO DAY WORK.

TRAINING BUNCHES:

- Safe operation of Cranes for Operators, Helpers & Supervisors
- Lifting Supervision for Foreman, Supervisors, Engineers & Banks Man
- Safe Rigging Procedures for Level 1, 2 & 3 Riggers
- Piling / Drilling Rig / Grab and Cutter Operation program for both Operators and Supervisors
- Safe operation & Maintenance of Forklifts
- Safe Operation of EOT- Gantry Cranes & Launching Grider Operator
- Safe operation of Backhoe Loader / Excavator / Skid Loader
- Road Safety & Safe Driving- (Defensive Driving Skills)
- Safe operation of boom placer/Jig lift/Aerial lift/Man Lift/Concrete Pump Operator/ Batching Plant Operator.
- Safe operation of Locomotive.
- Lock Out & Tag Out
- Safe operation of Tower crane
- Safe Operation of RRV (Road Rail Vehicle)
- Safe Operation of MSV (Multi Service Vehicle)
- Scaffolding Safety and Inspection

WORKING AT HEIGHTS

* All the training bunches are tailored to individual client's requirement.

TOPIC WISE TRAINING MODULE

TRAINING TOPICS FOR CRANE OPERATORS

- Basics of Cranes and Lifting Devices
- Classification & types of Cranes
- PPE importance and types
- Proper Crane Set-Up
- Structural and Stability Limitations
- Safety devices in crane
- Importance of SLI & Load chart
- Handling of “By pass switch”
- Load Handling & How to calculate “total weight of the load or pay load”
- Pick and Carry Operations
- Jibs and Extensions
- Hand Signals and Communications
- Pre-Operational Inspections
- Complex/Critical Lifts
- Hoisting and Rigging Practices
- Inspection, Testing and Certification
- Inspections of Tools & Lifting Tackles
- Accidents & Case Study discussions

TRAINING TOPICS FOR RIGGERS

- Basics of Rigging
- Classification of Rigging equipments
- Application of Wire ropes, Chains & Belts
- Choosing right types of hitches for handling loads
- Center of Gravity & Load determination
- Load Handling & How to calculate “total weight of the load or pay load”
- Calculation of sling capacities
- Selection criteria for Eye bolts
- Inspection procedures for lifting tools?
- How to read Load charts.
- Hand signals & Communication
- Securing procedures for Tools & tackles

TOPIC WISE TRAINING MODULE

TRAINING TOPICS FOR FORKLIFT OPERATORS

- Classification of Forklifts
- Fork lift attachments
- Operations
- Driving the truck
- Load handling
- Stacking & Un stacking
- Truck Maintenance
- Basic Stability principles
- Stability Triangle of Forklifts
- Daily checklist for Powered Industrial Trucks
- Safety Tips & Conclusion

TRAINING TOPICS FOR EOT & GANTRY OPERATORS

- Basics of lifting
- Fundamentals of crane
- Types and Classification of EOT & Application
- Identify EOT & Gantry crane components
- Safety devices in EOT and safe operation of EOT crane
- Pre-operational checks in EOT crane
- Load Handling & How to calculate “total weight of the load or pay load”
- Hoisting and Rigging Practices
- Inspections of Tools & Lifting Tackles
- Hand signal and communication
- EOT crane maintenance
- Do's & Don'ts
- Accidents & Case Study discussions
- Conclusion

TOPIC WISE TRAINING MODULE

TRAINING TOPICS FOR ROAD SAFETY & SAFE DRIVING

- Classification of Vehicles
- Pre-Operation Check Procedures
- Safe Driving Procedures
- Safety devices in vehicles
- Traffic & Lane Discipline
- Types of Signals
- Vehicle maintenance
- Tyre inspection and maintenance
- Safety Tips for day and night time driving, sleepiness, seasonal changes
- Do's & Don't in Driving
- Accident videos & Case Study discussions
- Mandatory Vehicle and Registration Documentation
- Fines / Penalty and IPC Section for punishment
- Conclusion

TRAINING TOPICS FOR LOCOMOTIVE OPERATION

- Classification & configuration of Locomotives
- Pre-Operation checks
- Operations
- Communication and signaling equipment's
- Safety devices in Locomotive
- Roles and competencies
- Daily Check list
- Locomotive Driver aids
- General Tunnel work Safety
- PPE
- Locomotive Maintenance
- Do's and Don'ts
- Accidents and case study discussions
- Safety Tips & Conclusion
